

PROMPTBOX PRESENTS

# GETTING AI TO DO REAL WORK

A hands-on Codex workshop for everyday creators

Turn ideas into actions, automations, and useful apps.

ABOUT 2.5 HOURS

NO CODING REQUIRED

## From curious beginner to capable AI builder

Designed for adults who are comfortable with computers - no programming background needed.

Learn by doing, leave with practical workflows, and see how far one good idea can go.

### WORK SMARTER

Put AI to work on files, spreadsheets, web tasks, and everyday computer jobs.

### BUILD USEFUL APPS

Create simple tools and mobile-friendly web apps from your own ideas.

### GO BEYOND CHAT

Connect AI services, files, and automation to tackle more ambitious projects.

## You will gain

- **Practical confidence**  
using Codex on real tasks
- **A builder's mindset**  
for turning ideas into tools
- **A clear next step**  
for creating AI-powered apps

## Ready to make AI genuinely useful?
